I'm not sure what will work in that part of the building. We can try when you are here tomorrow. If your MiFi does not work, we can arrange to log in on one of our computers and access the web in that way.

Thanks.

Caitlin would like to show a website as an example during one of her presentations. Is it possible to switch over in the middle of one of my presentations to the internet to pull up an NPDES website in the room we'll be using?

I will have a MiFi with me however, in order to have internet connection via the MiFi the MiFi would need to be receiving a cell signal which I know cell signals are not always available in all places at the IEPA offices.

Perhaps 25 handouts for Illinois EPA staff.

Subject: revised final draft agenda

Attached is a revised final draft agenda for the upcoming training. It was pointed out to me that I forgot to include a break for the first day of training and I also added a breakdown of time for Caitlin's presentation.

If I forgot anything on the agenda or if you have edits please let me know.

How many copies of handouts should I bring for Illinois EPA and AG staff?

thanks,  
julianne
